

SECRET

ODP-81-917
16 July 1981

MEMORANDUM FOR: Deputy Director for Administration
FROM: Bruce T. Johnson
Director of Data Processing
SUBJECT: ODP Report for Week Ending 15 July 1981

Support to OF

25X1 A decision was made on Friday, 10 July 1981, to process the overseas incentive pay as a differential, to be known as Interim Overseas Differential (IOD). The effective date of 12 July would remain the same. An analysis was done Friday night by Don [redacted] on the impact of using the present Cost of Living (COL) field. It was determined that the use of this field would require modifications to two major payroll programs, and a new program would have to be written to generate transactions to establish the IOD percentage in the Pay Master. These changes would have to be accomplished and placed in production status no later than Master File processing on the 23rd of July 1981.

25X1 Project AVAD

OSWR has forwarded their projected requirements for AVAD for the remainder of the fiscal year. Total requirements for 1981 are significantly greater than projected in November--batch +20%, VM +50%. A memo will be forwarded next week requesting OSWR to obtain Comptroller approval for a 23% increase in the level of ODP support for AVAD. [redacted]
